

Dear Colleagues

The 2010 Dragonair Aviation Certificate Programme (DACP) had come to a successful conclusion and we are now looking forward to the 2011 programme.

The programme, launched five years ago, is an educational initiative jointly organised by Dragonair and the Hong Kong Air Cadet Corps. It consists of an eight-month training programme for young people aged 18 to 23 who have an interest in pursuing a career in the aviation industry. Each participant is guided by a Dragonair pilot mentor as they build a strong foundation of aviation knowledge through lectures, training sessions, briefings, and tours of aviation facilities hosted by supporting organisations.

Details of the 2011 programme will be released very soon. Please find the attached poster for promotional purpose and feel free to contact us for more information.
